2022

Level 2 in Electrical Installation **Macclesfield college**

2016

8 GCSE's grades A-C **Wilmslow High School**

2010-2015

INTERESTS

- I really enjoy **coding** outside of my full time job, which is why I always try my best to stay up to date with the current technologies by watching youtube videos and reading documentation. This also helps me to learn from my mistakes and become better at what I do.
- I have a passion for **gaming** and typically do this in my spare time. This not only helps me to multi task but also give me a great ability to react quickly and make decisions.
- Alongside my role, I am also completing a **Bachelors in Cyber Security**, which is helping me to further understand the ins and outs of software development and security within the industry.
- I set goals to consistently make sure I'm doing new and fun things, and pushing myself out of my comfort zone. In line with my 2022 goals, I completed a **skydive** in June 2022.
- I used to play **Semi professional rugby** and was also selected for the Cheshire under 19's squad, with prior experience as a vice caption for my High school team. Now I play for my home Rugby team where I lead and motivate the squad, and use my strategic thinking to react quickly under pressure.
